The mission of The Children's Heart Foundation (CHF) is to fund the most promising research to advance the diagnosis, treatment, and prevention of congenital heart defects.

- ♥ The CHF is the only organization that strictly funds research for congenital heart defects.
- ♥ To date, CHF has raised approximately \$3 million dollars to fund research and promote awareness of Congenital Heart Defects.
- ♥ The CHF is a 501 (c) 3 not-for-profit organization.
- ♥ The CHF Medical Advisory Board is composed of the leading cardiologists, cardiovascular surgeons, and researchers from around the world.
- ♥ This is a great opportunity to connect with other families affected by CHD, participate in local events honoring children and adults with CHD, and support vital research for CHD.
