

it's My Heart

The Children's Heart Foundation

The production of

"It's My Heart"

was made possible through
a generous grant from the

and

additional support

from the Gerber Foundation

WNUA Cares for Kids Foundation

Circle of Service Foundation, Inc.

Winnetka Rotary

St. Jude Medical

Our heartfelt thanks to all of you!

Table of Contents

Introduction	7 – 12
I. The Normal Heart	13 – 18
Development of the Normal Heart	
Anatomy and Function of the Normal Heart	
Types of Abnormal Heart Disease	
II. Congenital Heart Defects	19 – 84
Aortic Stenosis	19-22
Atrial Septal Defect (ASD)	23-25
Atrioventricular Septal Defect (AVSD)	26-29
Coarctation of the Aorta	30-32
Congenitally Corrected Transposition of the Great Arteries	33-36
Double Inlet Left Ventricle (DILV)	37-39
Double Outlet Right Ventricle (DORV)	40-43
Ebstein's Malformation	44-45
Hypoplastic Left Heart	46-48
Mitral Valve Abnormalities	49-51
Patent Ductus Arteriosus	52-53
Pulmonary Atresia With Intact Ventricular Septum	54-56
Pulmonary Atresia With Ventricular Septal Defect(VSD)	57-59
Pulmonary Stenosis	60-63
Tetralogy of Fallot (TOF)	64-67
Total Anomalous Pulmonary Venous Return (TAPVR)	68-70
Transposition of the Great Arteries	71-74
Tricuspid Atresia	75-77
Truncus Arteriosus, Types I – IV	78-80
Ventricular Septal Defect (VSD)	81-84

III. Acquired Heart Conditions

85 – 94

- Arrhythmia
- Cardiomyopathy
- Congestive Heart Failure
- Endocarditis
- Pericarditis
- Rheumatic Heart Disease
- Viral Myocarditis

IV. Diagnostic Tests

95 – 100

- Cardiac Catheterization
- Chest X-ray
- Computerized Axial Tomography (CT Scan)
- Echocardiogram
- Electrocardiogram (ECG/EKG)
- Electrophysiology Studies (EP Studies)
- Holter Monitor
- Magnetic Resonance Imaging (MRI)
- Prebirth Testing
- Stress Testing

V. Equipment

101 – 104

- Chest Tube
- Central IV Lines
- Endotracheal Tube (ET Tube)
- Foley Catheter
- Heart Lung Bypass Machine
- Heart Monitoring Equipment
- Nasogastric Tube (NG Tube)
- Oxygen
- Pulse Oximeter
- Suction Procedure
- Temporary Pacemaker
- Ventilator/Respirator

VI. Surgical Procedures	105 – 120
Arterial Switch	106
Blalock-Hanlon Procedure	107
Blalock-Taussig Shunt	107
Closure of Septal Defects	108
Correction of Narrow Valves	109
Damus-Kaye-Stansel Operation	110
Fontan Operations	111
Kawashima Operation	112
Ligation (Division) of Patent Ductus Arteriosus	112
Mustard Procedure	113
Norwood Procedures, Type 1 and 2	114
One-and-One-Half Ventricle Repair	115
Pulmonary Artery Banding	116
Rastelli Procedure	117
Repair of Anomalous Pulmonary Venous Return	118
Repair of Coarctation of the Aorta	118
Repair of Common Atrio-Ventricular (AV) Canal	118
Repair of Tetralogy of Fallot	119
Ross Procedure	120
VII. Medications	121 – 128
Ace Inhibitors/Vasodilators	
Anticoagulants	
Antiarrhythmics	
Beta Blockers	
Diuretics	
Experimental Drugs	
Inotropic Drugs	
Potassium Supplements	

VIII. General Issues for Adults Born with Congenital Heart Disease	129 – 146
Preventative Measures for Healthy Lifestyle	
Regularly Established Plan for Follow-up of Heart Problem	
Hospitalization and/or ER Visit	
Travel Considerations	
Lifestyle Issues	
Reproductive Issues	
IX. Family Living	147 – 150
Bacterial Endocarditis	
Dental Care Issues	
CPR Training and Renewal	
Fire Department Notification	
Preparing for Daycare, School, Camp, etc.	
X. Preparing for Hospitalization	151 – 162
Discussing Hospitalization	
Preparing the Infant	
Preparing the Toddler	
Preparing the Preschooler	
Preparing the School Age Child	
Preparing the Adolescent	
Preparing Yourself	
Preparing for Discharge after a Medical Admission	
Preparing for Discharge after a Surgical Admission	
At Home Following a Hospitalization	
Sibling Issues	
Know What's Best for Your Family	
Glossary	163 – 174
Additional Resources	175 – 176
